- Navigating Education-Smooth Transitions Jan 2024
- Autism Suicide Prevention [Training for Professionals S1 – SSP Portal \(autismoxford.com\)](#) Password ssp-2023

All Age Autism Strategy Behind The Mask

The Behind The Mask event was coproduced with an amazing group of inspirational partners focusing on improving emotional wellbeing support for autistic girls* in educational settings.

*Those who identify as girls and those who were assigned female at birth

Autistic young people took a lead in presenting and facilitating workshops.

A main objective of the event was to reinforce how important it is to listen to the voice of the child and to the experiences of parents and carers.

Throughout the day, participants were equipped with tools and suggestions to improve and build on good practice to ensure educational settings are a better place for all children and young people.

Autism Strategy

CYP Priorities-Year 3

- ARFID-Sensory Experiences with Eating and Drinking
- Gender and Sexuality
- Parenthood Support
